**IN NURSING
HOMES AND AT HOME**

HEB'DOSE DUO DISPENSER

THE ORIGINAL SOLUTION

A solution which has been on the market for over 10 years and has proved its worth to the professional or personal user, in nursing homes and at home.

HEB'DOSE DUO PDA

- A3 format weekly dispenser composed of 28 double compartments, detachable by the day and by dispensing time.
- An exceptional compartment to easily manage special doses, additional treatments or crushable / non crushable medications.
- A two-step opening to comply with dosing recommendations.
- Perfectly integrated in the nursing home environment or at home, thanks to an adapted distribution system.

XL

SOLO

Easily detachable and transportable compartment

HEB'DOSE PDA

ADAPTATED SOLUTIONS FOR NURSING HOMES AND AT HOME

SECUR'DOSE SOFTWARE ©

TO TRACE AND SECURE THE MEDICATION CIRCUIT FROM PREPARATION TO PATIENT ADMINISTRATION

MORE SECURITY

Sécur'Dose® assists and guides the preparation step by step to ensure methodical, error-free filling that complies with good drug preparation practices.

MORE EFFICIENCY

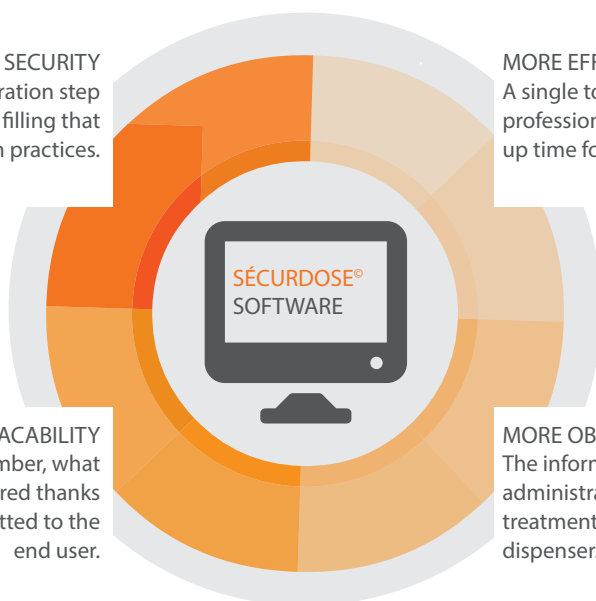

A single tool, a single operating logic, interfaces with professional software to retrieve prescriptions, freeing up time for counter sales.

MORE TRACABILITY

Who, when, how, which batch number, what dosage... questions that can be answered thanks to the information collected and transmitted to the end user.

MORE OBSERVANCE

The information, essential to facilitate administration, follow-up and understanding of the treatment, is clearly indicated on the prepared dispenser.

HEB'DOSE DISPENSER

ERGONOMIC MATERIAL ACCESSIBLE AND UNDERSTANDABLE BY ALL

These single use dispensers are eco-designed, guaranteeing compliance with hygiene and safety standards. In APET food contact, they are composed of virgin material, in contact with the drug, and regenerated material. Produced in France in a cleanroom environment, they are recyclable.

THEY HAVE BEEN DESIGNED TO FACILITATE:

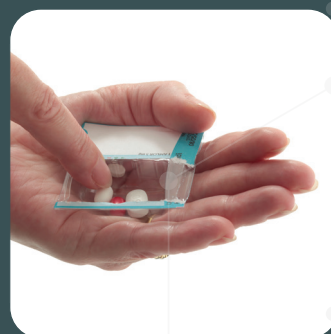

THE OPENING

THE TRANSMISSION

TAKING THE MEDICATION

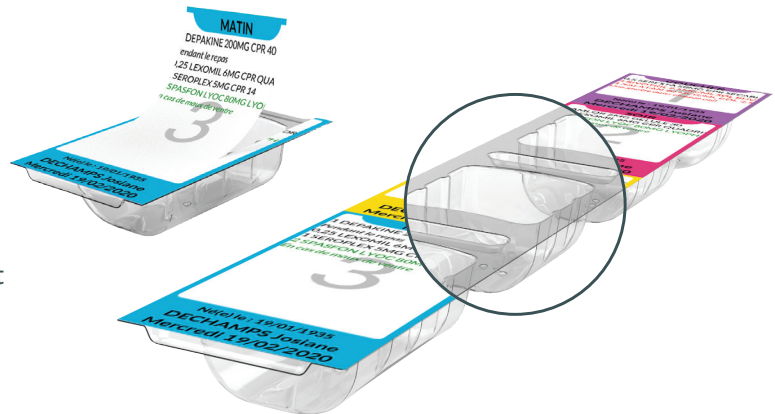

NEW DISPENSERS OF THE RANGE

GUIDED BY THE SECUR'DOSE PDA SOFTWARE

To adapt to end-user expectations and constraints.

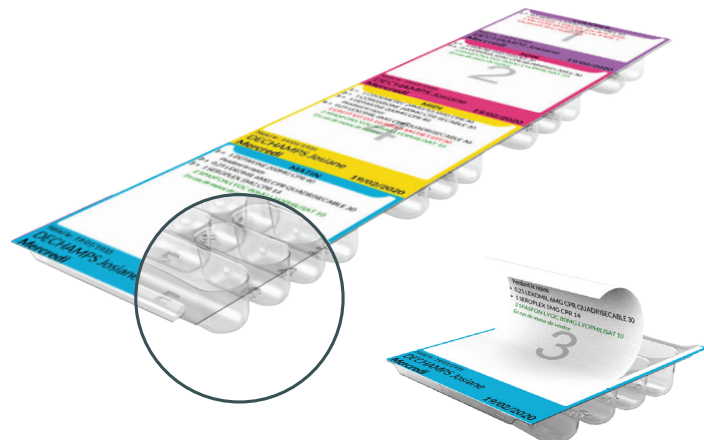

HEB'DOSE SOLO® PDA

- A4 format weekly dispenser composed of 28 single compartments, detachable by the day and by dispensing time.
- A different capacity for dispensing times, adapted to the average number of medications usually prescribed.
- Ideal for establishments managing patients with a light treatment or for counter patients.
- Economical solution.

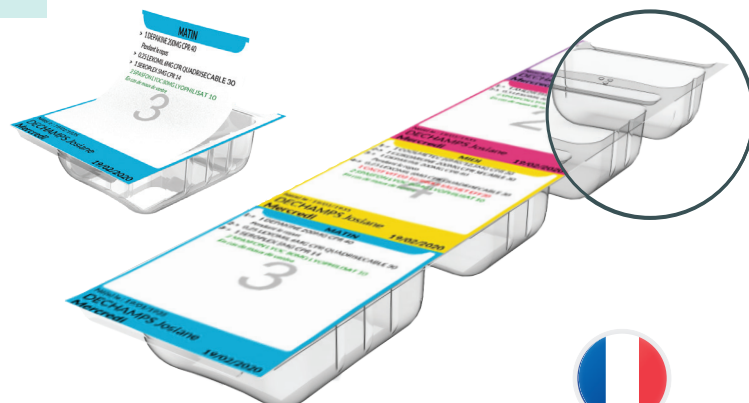

HEB'DOSE MULTI® PDA

- A3 format weekly dispenser composed of 28 multi-compartments per dispensing time, detachable by the day and by dispensing time.
- A different number of compartments by dispensing time to optimize the dispenser's capacity and avoid waste.
- A sealing operation carried out by a single label that includes the essential information.
- Ideal for establishments wishing to separate medications from other.

HEB'DOSE XL® PDA

- A3 format weekly dispenser composed of 28 XL compartments, detachable by the day and by dispensing time.
- 4 XL compartments of different capacities, adapted to the average number of medications usually prescribed.
- A one-step sealing operation.
- Perfect integration into our distribution solutions in nursing homes.
- For establishments wishing to keep primary packaging.

DISTRIBUTION SOLUTIONS

IN NURSING HOMES

To meet safety and traceability requirements, to limit administration errors and facilitate the follow-up.

“PLUMIERS” FOR NURSING HOME DISTRIBUTION
