## **MAXGRIND™ PILL CRUSHER AND GRINDER**

- Effortless fine powder
- Easy to handle
- Practical and comfortable
- Safe and easy to clean

# PILL CRUSHER

CRUSH AND GRIND MEDICATIONS WITH EASE

The first manual grinder allowing two crushing processes:

## TWO AVAILABLE OPTIONS:

The first method consists of crushing the medication directly into the integrated collection cup, allowing the addition of a suitable medium: water, thickened water, or applesauce.

The second method involves inserting a 30 ml disposable cup to ease administration, avoid transfer into another container, and simplify cleaning of the grinder.

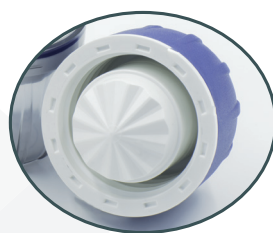

## PATENT PENDING

- Dimensions: Ø55 x H88 mm
- Sold individually

SKU : 24320

- **DUAL ACTION:** crushes and grinds medications into a fine powder effortlessly.
- **EASY TO USE:** pepper grinder-style movement.
- **COMFORTABLE :** non-slip rubberized lid.
- **EXCLUSIVE :** integrated powder collection cup.
- **SAFE :** latex-free and BPA-free.
- **CONVENIENT :** built-in storage compartment.

## THE ASSURANCE OF SAFER AND MORE COMPLETE MEDICATION DELIVERY!

The specially designed shape of Maxgrind™ ensures both crushing and grinding of tablets with minimal residue and effort. This results in optimal powder retrieval and full dose administration.

## COMFORTABLE AND EASY TO MAINTAIN:

An ergonomic grinder, easy to grip, with a non-slip rubber lid to facilitate the grinding process.

## SIMPLE AND EFFORTLESS MOVEMENT:

After tightening the lid until the initial crushing is felt, simply rotate it back and forth like a pepper mill—no significant effort required.

## MINIMIZED POWDER RESIDUE:

Once the grinding is complete, continue rotating without tablets inside: the air pressure within Maxgrind helps dislodge residual powder into the collection cup, reducing active substance loss.
